

PELLON

FEED TRANSPORT

CC800 – For large capacities

Pellon CC 800 Chain conveyor for transferring feed from multiple Module DFD's to CutMix.

Technical details

- Completely enclosed conveyor bottom
- Gives even flow to next device
- Keeps floors of the feed mixing area clean

Features

- Stainless steel bottom slide plate
- Covered roller chain
- Toothed conveyor bars decrease pressure on bottom plate
- Self cleaning chain wheels

Application examples

- Installations of 45° or even steeper angles like from mixer to feeder or from filling devices to mixer
- Also for horizontal installations when no e.g. silage leakings are not allowed

Features	Pellon CC800
Controls	Pellon G-Pro2
Width	800 mm
Lift up angle	45°
Power	3,0 kW
Straw length in feed max. 100 mm
